Asguard®

Silicone Foam

Asguard® Silicone Foam is an all-in-one dressing that protects both skin and wound tissue. Absorbing excess exudate, this dressing provides the benefits of modern wound healing and encourages less frequent dressing changes.

Soft Silicone Adhesive

Provides reliable tack through multiple points of contact, keeping the dressing securely in place while preventing leakage and skin maceration

Low Profile Design

Thin, smooth construction sits close to the skin, reduces pressure points, and allows comfortable use under compression or clothing

Water & Shower Resistant Film

Designed to reduce dressing changes and maintain integrity during routine hygiene and mobility activities

Suitable for:

- Primary and/or secondary dressing for the management of wounds
- Arterial, diabetic and venous leg ulcers
- Pressure injuries, partial thickness burns and surgical incisions

REF	Description	Size	Pcs/Unit	Units/Ctn
AWS250	Silicone Foam	5cm x 5cm	10	10
