Sentry swabs offers high absorbency, softness and consistency to save you money and meet your wound care needs.

Now Introducing:
Split Drainage Dressing
Sterile Eye Pads
Standard Swabs
X-Ray Swabs

another quality product from Sentry Medical

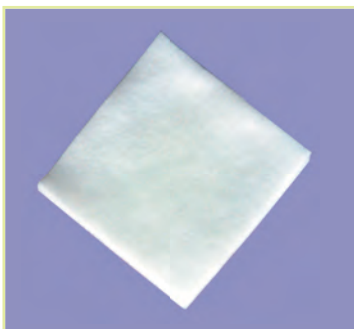

Non-Woven Swabs

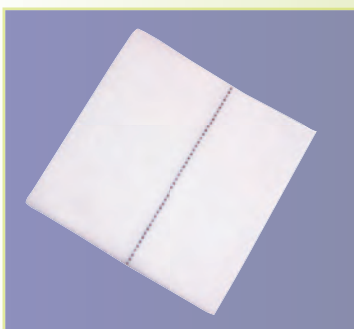

Sterile Eye Pads: Heat sealed on all sides offers increased absorption and a cleaner wound site.

Split Drainage Dressing: Designed for use with a variety of tube sizes.

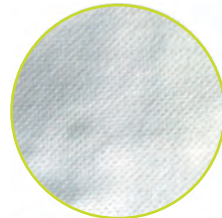

Gauze Sponges: (Sterile and Non Sterile in multiple sizes)

X-Ray Sponge: double wrapped (Sterile and Non Sterile)

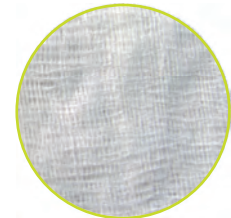

Non-Woven Swabs

Non-Woven

vs.

Cotton Gauze

Non-Woven offers faster healing times and cost savings as a result of the following benefits:

- 1 Higher Absorption rate vs. Cotton Gauze reduces the number of dressing changes required
- 2 Low linting keeps the wound site cleaner than cotton gauze
- 3 Synthetic construction allows for increased consistency between sponges compared to cotton gauze
- 4 Soft material is less traumatic to the wound site and minimizes wound adhesion
