

Haemoplast IV Pressure Dressing

Asguard Haemoplast IV Pressure Dressings combine an absorbent pad with a soft and comfortable non-woven adhesive backing. The small adhesive plaster is specifically crafted to provide immediate and effective wound care following injections, vaccinations, blood tests, or blood donations.

Haemostatic Pad

Absorbent non-adherent pressure pad swiftly manages minor bleeding

Easy Peel Backing

Allows for easy application

Skin-Friendly Adhesive

Minimises discomfort on application and removal and helps reduce the risk of skin irritation

Suitable for:

- Dressing for post injection, IV or venepuncture sites
- GP Clinics
