

Non-Woven Island Dressing

The island design of these dressings features an adhesive border that securely seals the dressing in place, helping to prevent contamination and ensuring the wound remains protected from external factors. This adhesive is skin-friendly and provides reliable fixation, yet is easy to remove, minimising trauma to the healing tissue.

Soft Non-Woven Material

Gentle on skin and reduces edge lifting

Low Adherent Pad

Gentle on the skin, aiding to minimise the risk of irritation or discomfort as well as reduces edge lifting

Flexible

Ideal for use on areas difficult to dress (e.g. heel)

Suitable for:

- Lightly exuding wounds
- Post-operative and minor wounds where water resistance is not required
