

## Wound Dressings

Sentry Wound Dressings are constructed of a thick, highly absorbent cotton pad attached to a cotton gauze bandage. The dressings are intended to soak exudate away from the wound bed whilst protecting the open wound. Sentry Wound Dressings can also be used for padding and protection of the skin against external factors.

### Highly Absorbent

Large absorption capacity and holds exudate away from the wound bed

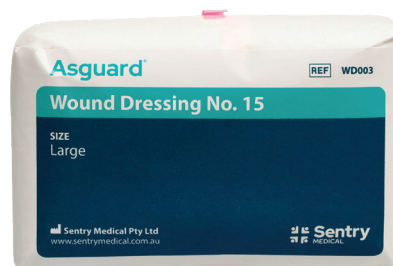

### Protects against possible Infection

Various dressing sizes effectively cover wound and protect against debris and foreign matter

### Easy to Use

Individually packed in an easy tear wrapper

### Suitable for:

- High exuding wounds
- Padding and protecting wound bed
- Hospital, clinical and first aid settings

REF	Dressing Size	Sterility	Pcs/Unit	Units/Ctn
WD001	Small	Sterile	12	48
