Bodichek®

Plastic Detect Strips

Bodichek Plastic Detect Strips are designed for minor wound care in food handling, processing or any environment where contamination control, visibility, or compliance matters. Each strip features a pressure-sensitive adhesive, a low-adherent absorbent pad, and a flexible, perforated plastic backing. The bright blue colour ensures high visibility and traceability for added safety.

Detectable & High Visibility

Bright blue colour ensures high visibility and quick detection and is ideal for use in food environments.

Protective Barrier

The strip assists in shielding the wound site from environmental contaminants and particulates

Gentle on Skin

Low- adherent absorbent pad minimises trauma to the wound bed and supports atraumatic removal

Suitable for:

- Food processing environments
- Commercial kitchens & catering
- Food manufacturing & packaging
- Minor cuts and abrasions
