

# reclens®

## Eyewash with Eye Cup

Reclens® Eyewash with Eye Cup is a sterile isotonic solution for use as an emergency eye or skin wash. The solution is available in a single use, preservative free 100ml size. The bottles include an integrated eye cup that twists to break the sterile seal of the bottle. Equally suitable for first aid applications, at home, when travelling or in the workplace.

### Features

- Ideal for first aid and emergencies
- Flushes eye and removes foreign bodies
- Integrated, custom designed eyebath
- Ergonomically designed to fit eye socket
- Evenly distributes fluid to the eye
- Ingenious twist opening to maintain fluid sterility for single use
- Bottle designed for easy squeeze function
- Preservative free – 0.9% Sodium Chloride
- 4 year shelf life
- Single use
