

## Transparent Tape

This versatile adhesive is designed for a variety of applications, ensuring dressings, tubes, and medical devices are securely fastened, while providing patients with comfort and ease of movement.

Its water-proof properties make it suitable for use in situations where it may come into contact with moisture, ensuring the tape remains effective and reduces the risk of infection.

### Water Proof

Ideal for use insitu whilst showering or situations where it may come into contact with moisture

### Visibility

Transparent nature allows monitoring the condition of the skin or wound without removal

### Hypoallergenic

Minimises the risk of irritation or allergic reactions, making it suitable for patients with sensitive skin or for long-term use

### Suitable for:

- Securing dressings on wounds or surgical sites.
- Fixing tubes and catheters, ensuring they remain undisturbed during treatment.
- Holding medical devices in place, such as sensors for monitoring vital signs.
- Providing a barrier against external contaminants, reducing the risk of infection.
