

Sage[®]

STERILE SINGLE-USE SURGICAL INSTRUMENTS

Sage[®] Surgical Instruments

For over 30 years, Sentry Medical has been helping health care professionals provide exceptional care to their patients through a modern and quality driven portfolio.

Sage[®] Sterile Surgical Instruments are forged from stainless steel and available individually or in convenient instrument packs for various medical procedures. With their signature blue handles/ends these are easily recognisable as being single-use, ensuring proper identification and adherence to safety protocols.

Sage[®] Sterile Surgical Instruments have proven their effectiveness and convenience in emergency wards, hospitals, and various health care settings.

Features & Benefits

Ideal for Infection Control

Provides an on-demand sterile setup to help minimise the risk of infection

Time Efficient

Components provided in all-in-one pack are sterile and help save on setup time for medical procedures

Blue Ends/Handles for Single-Use Identification

Serve as a clear indicator that the instrument is a single-use disposable item, ensuring proper identification and adherence to safety protocols*

Securely Held in Patented Multi-Pouches

These patented pouches hold each instrument securely in their own compartment, preventing instruments from rubbing against each other and aiding in aseptic transfer[^]

Durable

Stainless steel provides durability and corrosion resistance

Various Component Options

Packs are offered in a range of configurations for different medical procedures

*Excluding instruments in podiatry packs & 11003021 scissors with ergonomic handle.
[^]11003035 to 11003037 utilise multi compartment pouches
